OBJECTIVE

Motivated and results-oriented B.Tech Computer Science (Big Data Analytics) undergraduate at Netaji Subhas University of Technology (NSUT) with hands-on experience in data analysis, visualization, machine learning, and end-to-end project development. Skilled in transforming raw data into meaningful insights using analytical techniques, dashboards, and predictive models. Actively seeking a Data Analyst Internship to apply technical expertise, analytical thinking, and problem-solving skills in real-world, data-driven environments.

EDUCATION

- Netaji Subhas University of Technology (NSUT), New Delhi
B.Tech in Computer Science – Specialization in Big Data Analytics
Current CGPA: 8.01 / 10
- Expected Graduation: 2027

TECHNICAL SKILLS

- Programming & Databases
Python, R, SQL, Java, C++
- Analytics & Visualization
Microsoft Excel, Power BI, Tableau, Matplotlib, Seaborn
- Big Data Tools
Hadoop, Apache Spark
- Machine Learning
Regression, Classification, Clustering (Scikit-learn)
- Core Competencies
Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Design Thinking, Problem Solving

EXPERIENCE

- Community Intern
Social Education and Liberty Foundation, New Delhi
May 2024 – July 2024
- Completed 80+ hours of structured community service, fulfilling NSUT's mandatory internship requirement.
- Delivered 30+ academic teaching and mentoring sessions to 20+ underprivileged students,

focusing on conceptual understanding and skill development.

- Designed and conducted weekly quizzes and assessments, resulting in a 40% improvement in student engagement and academic performance.
- Strengthened leadership, communication, and organizational skills while contributing to education-focused social initiatives.

PROJECTS

- Mental Health Analysis (Python, Machine Learning)
 - Analyzed mental health survey datasets to identify key stress indicators and contributing factors.
 - Performed data preprocessing, feature selection, and exploratory data analysis.
 - Built and evaluated classification models to predict mental health risk levels, enabling data-driven insights for early intervention.
- Fitness Analysis (Data Analytics & Visualization)
 - Processed fitness tracking datasets to analyze workout patterns, intensity, and consistency.
 - Developed visualizations to identify trends in physical activity and recovery.
 - Generated personalized fitness insights and recommendations using data-driven analysis.
- Sales Data Analysis (SQL, Power BI)
 - Queried and transformed sales datasets using SQL to extract meaningful business metrics.
 - Designed interactive Power BI dashboards to monitor revenue growth, customer behavior, and sales trends.
 - Delivered actionable insights to support data-driven decision-making.
- BharatVerse – AI Powered Heritage and Culture Platform (Smart India Hackathon 2025 Winner)
 - Architected a one-stop digital platform to explore and learn about Indian heritage and culture using Vite, React, and Tailwind CSS, with emphasis on performance and accessibility.
 - Integrated Google Maps API to enable location-based discovery and interactive visualization of culturally significant sites across India.
 - Leveraged Gemini Flash 2.5 API to generate AI-powered cultural narratives, summaries, and contextual insights, enhancing user engagement.
 - Implemented secure authentication using Clerk and scalable data storage with Supabase (PostgreSQL).

ACHIEVEMENTS & CERTIFICATIONS

- Winner – Smart India Hackathon (SIH) 2025, Software Edition (PS ID: SIH25130). Collaborated with a 6-member team, contributing to end-to-end delivery from problem analysis and system design to full-stack prototype development. Played an active role in

technical decision-making and cross-functional coordination to deliver a scalable, high-impact solution recognized by the national jury.

- NPTEL – The Science of Happiness and Wellbeing: Elite Certificate.
- NPTEL – Design Thinking: Elite Certificate.
- NPTEL – Organizational Behaviour: Elite + Silver Certificate.
- NPTEL – Ethical Hacking: Elite + Silver Certificate.
- Academic Merit in French (Third Language), Class 10.

EXTRACURRICULAR ACTIVITIES

- Member, Coding Club – NSUT: Actively participated in hackathons and coding competitions, enhancing technical and problem-solving skills.
- Volunteer, College Tech Fest: Managed event registrations, data collection, and basic data analysis for smooth event operations.
- Active Member, Debate & Literary Society – NSUT: Developed strong communication, critical thinking, and presentation skills.

STRENGTHS

- Strong analytical and problem-solving abilities
- Effective communication and teamwork skills
- Quick learner with adaptability to new tools and technologies
